**Greetings,**

As a non-profit professional with over 26 years experience in the non-profit field, I can honestly say that Future for KIDS is one of the best non-profit organizations I have had the privilege of working with. Future for KIDS (FFK) is one of the most effectively and efficiently operated non-profit organizations in the state of Arizona. The level of professionalism, expertise and excellence that the Executive Director, staff members and Board members exhibit is exemplary. We have partnered with FFK for the last four years and the benefit their programs provide our Boys & Girls Club members cannot be captured. We have a partnership made in heaven! We have the youth and teen members and we have the facilities. FFK has the trained mentors and the proven programs. Together, we are able to provide youth with academic success, mentoring and healthy lifestyles programming with a deeper impact than either organization could do alone. Our missions are very similar, as we both work with the underserved youth, helping to prepare them for a successful future. FFK helps our Boys & Girls Club members have the positive, life-changing experiences and opportunities they need to realize their full potential and become productive, caring and responsible citizens.

I am a big fan of FFK and endorse this non-profit organization as one of the best of the best!

Sincerely,

Michelle Duenas
